OBJECTIVE

To obtain a Frontend Developer position where I can apply my experience with React, TypeScript, and Node.js to build fast, scalable, and accessible web applications in a modern development environment using Agile practices.

SUMMARY

Frontend Developer with over 3 years of experience designing and developing scalable web applications using React.js, TypeScript, and Redux. Skilled in integrating RESTful APIs and collaborating with backend services built with Node.js and MongoDB. Passionate about creating high-quality, user-friendly interfaces and delivering efficient software solutions.

EDUCATION

Bachelor's Degree in Computer Engineering

Palestine Technical University – Kadoorie

(August 2014 – June 2020)

EXPERIENCE

Frontend Developer Intern - Foothill, Palestine

(January 2023 – April 2023)

1- Completed a 4-month intensive training program focused on frontend development best practices.
2- Built and maintained a personal portfolio website using HTML and CSS.
3- Developed a dynamic To-Do List application using JavaScript and React.
4- Created and maintained 15+ reusable UI components for a POS system using React, Redux, and TypeScript.
5- Utilized Git and GitHub for version control in team workflows.

Full Stack Web Developer- Bit Academy, Palestine

(January 2022 – March 2022)

1- Completed a 3-month industry-focused bootcamp covering the MERN stack (MongoDB, Express.js, React, Node.js).
2- Built full-stack projects from scratch, applying strong OOP principles.
3- Developed client-server applications with RESTful APIs and React.
4- Integrated external APIs to extend application functionality.

SKILLS

Frontend: HTML, CSS, JavaScript (ES6+), Bootstrap, Tailwind CSS, Styled Components, TypeScript, Redux, React, Next.js, React Router, React Hook Form, Material-UI, Jest, React Testing Library.

Backend: Node.js, Express, MongoDB, Mongoose, JWT, MySQL, Cloudinary, Stripe.

Tools & DevOps : Postman, Git, Problem Solving , Vercel, Render.

Soft Skills: Troubleshooting, Communication, Time Management, Agile Development, Cross-team Collaboration

LANGUAGES

English: Very Good | Arabic: Native Speaker

PROJECTS

eCommerce Project

Full Stack Project | React, Node.js, TypeScript, MongoDB, Redux, Stripe, Cloudinary

1- Developed a full e-commerce platform with product browsing, cart, and secure checkout.
2- Integrated Stripe for payments and SendGrid for password recovery.
3- Built admin dashboard for product/category/order management.
4- Implemented product filtering, sorting, and review system.
5- Secured backend with JWT, rate limiting, and input sanitization.
6- Used Cloudinary for images and React Hook Form for forms.
